Replace the broken front cameras of your LG V10 for clearer selfies. The front cameras of LG V10 includes a standard angle camera and a wide angle camera. They can get broken or ineffective because of unsuitable operation and crash.

If your LG V10 front camera went bad, follow this video to replace and repair the broken front-facing camera. It solves problems like selfies always come out blurry, the front camera will not turn on, white dots keep appearing in your photos, the wide angle camera is blurry, or the standard angle camera can not focus.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)
- [Plastic Tweezers](#) (1)

PARTS:

- [LG V10 Front Camera](#) (1)
-

To reassemble your device, follow these instructions in reverse order.
